A NEW ALBUM FROM THE ORIGINAL ULTRAMAGNETIC MC'S! SPREAD THE WORD, IT'S THE "BEST KEPT SECRET"!

It's official! Ultramagnetic MC's, aka The Bronx Kings, have created a new future classic for the fans featuring the original line up and production. Kool Keith, Ced Gee, Moe Luv and TR have joined forces again to write a new chapter in the Ultramagnetic MC's legacy. The upcoming release from DMAFT Records, "The Best Kept Secret", represents freedom for the U-G Controllers, freedom from the major label games, the Machiavellian moves, freedom from the 'Wack Industry'. This album was made by Ultramagnetic, for Ultramagnetic and their fans - with no outside influences or flavor of the month production teams. From the streets, the strip clubs, the hotel rooms, this is the album that Ced Gee and Kool Keith always wanted to make.

Carl Caprioglio, DMAFT Records/Oglio Entertainment Group President, explains why he decided to team up with the Ultramagnetic MC's, "We've worked with Kool Keith going back to DMAFT's release of his "Lost Masters" series back in 2003. It's been a thrill to work with Keith and now the legendary Ultramagnetic MC's especially to give them the room to finally pursue their own artistic direction". DMAFT Records is a division of the Universal/Fontana distributed Oglio Entertainment Group and is also home to Kool Keith's "Lost Masters" series and the "Diesel Truckers" collaboration with Kutmasta Kurt.

The first official single off "The Best Kept Secret" will be "Mechansim Nice (Born Twice)" b/w "Nottz". You can also check myspace.com/ultramagneticmcs for the Keith and Ced supervised club videos to "Late Nite Rumble" and "Party Started".
